

PRODUCT DATA SHEET

VORSTAB MIGRA AP 3 GREASE

VORSTAB

(All purpose grease)

Description:

Vorstab Migra AP 3 (all-purpose grease) are blend of carefully selected base oil with lithium soap. This grease maintains its structure over prolonged period of use and can be applied through all grease dispersing systems including centralized lubrication systems.

Application:

Vorstab Migra AP 3 greases are recommended for plain and antifriction bearings of car, commercial vehicles, off highway equipment steel plants, textile mills, paper mills, mining, heavy engineering plants, chemical plants, construction industries, etc.. Further it is also suitable for anti-friction bearing and roller bearings in steel mills.

Performance Benefits:

- High oxidation stability
- Superior structural stability coupled with antirust and anticorrosion properties
- Extended service life

Typical Physico-chemical Properties:

NLGI Classification	AP 2	AP 3
Consistency, X 60 strokes @25 °C±0.5°C	265-295	220-250
Dropping point, °C	190	190
Copper strip corrosion	1A	1A
Oxidation stability 100th, @100 °C	50	50
Penetration delta unworked 10 ⁵ stokes, max	30	30
Roll stability 18h @ 65 °C, max	100	100
Water Washout (%) 1h @ 79 h, max	5	5

Health and Safety:

Based on available information, this product is not expected to produce adverse effects on health when used for the intended application and the recommendations provided in the Material Safety Data Sheet (MSDS) are followed. MSDS is available upon request. This product should not be used for purposes other than its intended use.
